

RISHIRAJ SAJEEV

(+91) 7012256686 ◇ Kerala, India
rishirajsajeev@gmail.com ◇ [Portfolio](#)

PROFILE SUMMARY

Full-stack developer focused on the **Vue 3 ecosystem**, with a strong base in **Angular** and backend integration using **NestJS**. Experienced in modular UI design, scalable APIs, and deploying containerized microservices on cloud infrastructure. Advocates clean architecture, performance, and maintainable code.

CORE SKILLS

- **Frontend:** Vue 3 (Composition API, Pinia, Vue Router), Angular (RxJS, NGRX), React, Tailwind
- **Backend:** Node.js, NestJS, Express, REST, GraphQL, gRPC, Kafka, Socket.io
- **Databases:** PostgreSQL, MongoDB, Redis, Supabase (RLS), Prisma, TypeORM
- **DevOps & Cloud:** Docker, Kubernetes, GitHub Actions, AWS EC2, CI/CD
- **Programming Languages:** Javascript, Typescript, SQL, HTML5, CSS3, Java, C

PROJECTS

Apply Log – Job Tracker (Live)

Vue 3, Supabase, PostgreSQL

[GitHub](#) • [Live Link](#)

- Built a responsive job-tracking platform with reactive state via **Pinia**.
- Integrated Supabase with **Row-Level Security (RLS)** for user data isolation.
- Added export utilities (PDF, CSV, Excel) for application reporting.

EEZY-CABS – Taxi Booking Prototype

Angular, NestJS, Redis, Kafka, gRPC

[GitHub](#)

- Built a modular **microservice system** with **Angular–NestJS** integration via gRPC and Kafka.
- Implemented real-time driver tracking using **WebSockets** and Redis pub/sub.
- Designed event-driven communication for scalable and fault-tolerant service workflows.

Tagtics – SaaS Feedback Platform

React, Supabase, PostgreSQL

[GitHub](#) • [Live Link](#)

- Developed an early-access prototype for contextual feedback collection.
- Implemented auth, workspace creation, and API rate limiting.

Fashion Studio – E-Commerce Platform

Node.js, Express, MongoDB

[GitHub](#)

- Built full-stack e-commerce app with cart, checkout, and Razorpay integration.
- Deployed to AWS EC2 with role-based access and Google OAuth login.

EDUCATION

Bachelor of Science in Computer Science

2020 / 2023

University of Kerala, India

ADDITIONAL HIGHLIGHTS

- Deep understanding of **frontend reactivity**, component-driven UI, and state management.
- Practical exposure to **distributed systems, container orchestration, and CI/CD pipelines**.
- Self-taught developer with focus on building functional, scalable products.
